Full Stack Developer with over 3+ years of expertise in developing and managing scalable applications using Angular, Ionic Framework, and NestJS. Skilled in delivering mobile-friendly, responsive solutions, and adept at integrating real-time data and backend technologies. Experienced in leading projects from inception to deployment, ensuring quality and performance for web and mobile applications.

## Technical Skills

---

- **Frontend:** Angular, Ionic Framework, Angular Material, Bootstrap, Tailwind CSS
- **Backend:** NestJS, Node.js, Express.js, Socket.io, Redis
- **Database:** MySQL, Firebase
- **Languages & Tools:** Javascript, Typescript, RxJS, Swagger API, JIRA, GIT

## Work Experience

---

### Software Engineer

Synamen Thinklabs Private Limited, Chennai (November 2023 - Present)

- **Full Stack Development:** Delivered dynamic web applications using Angular and NestJS. Contributed to mobile-friendly development with Angular and Ionic for cross-platform performance.
- **Real-Time Data Integration:** Utilized NestJS and Socket.io for real-time data handling and Kafka for data streaming, enhancing app responsiveness and reliability.
- **API Development:** Developed RESTful APIs for robust backend support using Express.js and NestJS, ensuring seamless data flow and integration.

### Web Developer

Synamen Thinklabs Private Limited, Chennai (October 2021 - November 2023)

- **Angular Development:** Specialized in building interactive, user-friendly interfaces using Angular, improving user engagement and experience.
- **Mobile Application Development:** Created mobile-responsive applications with Angular and Ionic, ensuring high-quality UI across devices.
- **Data Dashboard:** Developed a real-time data dashboard to support live data updates, showcasing expertise in cutting-edge web solutions.

## Key Projects

---

### FinGenesis (March 2024 - Present)

Technologies: Ionic, Angular, NestJS, Socket.io, Redis

Developed a cross-platform trading platform with real-time market data. Integrated live data streaming via Kafka and NestJS, ensuring up-to-date market information. Deployed with Redis for efficient data handling.

### **FieldFixx** (December 2022 - July 2023)

Technologies: Ionic, Angular

Developed a task management mobile app featuring Google Authentication and Razorpay payments. Oversaw Play Store deployment and continuous feature enhancements based on feedback.

### **Botree Money** (July 2022 - November 2022)

Technologies: Angular, Express.js

Built a loan application web app with secure login, data management, and customer follow-up tracking. Enhanced the user experience with a responsive Angular frontend.

## **Education**

---

### **B.Tech Information Technology**

St. Peters Institute of Higher Education and Research - Chennai

July 2016 - May 2020 | CGPA: 6.54

## **CERTIFICATION**

---

- Angular - The Complete Guide (2024 Edition) - Udemy
