Open Source Contributions

npm warden

2026

Built a CLI tool to audit npm dependencies for security vulnerabilities outdated packages and maintenance risks. Implemented dependency analysis and reporting features to help developers improve codebase reliability and maintainability.

cloudflare kit

2026

Created a TypeScript based toolkit for Cloudflare Workers to streamline development of edge applications with built in routing middleware and authentication support. Designed for scalability performance and developer productivity.

Summary

Full Stack Developer with over 4 years of experience in designing and building scalable web and mobile applications using Angular, TypeScript, Node.js, NestJS, Express, and Ionic Framework. Strong expertise in microservices architecture, real-time systems, and backend development.

Experienced in developing end-to-end solutions including responsive front-end applications, secure REST APIs, and cross-platform mobile apps. Skilled in WebSockets, Redis, and performance optimization. Currently working as an IT Analyst at TCS, contributing to enterprise-level applications and system design.

Education

St.Peters Institute of Higher Education & Research

B.Tech • 6.5

Information Technology

Chennai • 2016-2020

Bachelor of Technology in Information Technology with focus on programming, web development, and software engineering fundamentals.

Experience

Synamen Thinklabs Private Limited

Chennai

Senior Software Engineer

October 2021 to March 2026

- Developed scalable web and mobile applications using Angular, TypeScript, Node.js, NestJS, and Express
- Built responsive front-end applications and reusable UI components
- Designed and implemented secure REST APIs for backend services
- Developed real-time systems using WebSockets and Redis
- Contributed to microservices architecture and refactored monolithic systems
- Improved application performance and system scalability
- Collaborated on system design, API contracts, and deployment workflows
- Mentored junior developers and promoted clean coding practices

Tata Consultancy Services

Chennai

IT Analyst C2

April 2026 to Present

- Contribute to development and enhancement of enterprise applications
- Build and maintain scalable backend services and APIs
- Collaborate with cross-functional teams to deliver reliable solutions
- Support system integration, debugging, and performance improvements
- Participate in agile development processes and code reviews
